★ PROJECTS

File Drive

File Drive is a mobile-responsive, full-stack web application that allows users to store, manage, and access files online. It features a user-friendly interface for account and file management.

https://file-drive-orpin.vercel.app (server can take up to 40 seconds to start) Github

BroStyle Dashboard

BroStyle Dashboard is an e-commerce dashboard that helps users to monitor sales statistics, manage products, and handle orders.

https://bro-style-dashboard.vercel.app Github

VillaHaven

Villahaven is a mobile-responsive, full-stack villa booking website designed for reserving villas for your vacation at specific locations.

https://villa-haven.vercel.app Github

❧ EXTRA-CURRICULAR ACTIVITIES

Junior Level Web Developer at Advance Academy, Varna
February 2023 — October 2023

Completed an intensive web development bootcamp focusing on junior-level profciency. Throughout the program, I gained experience in HTML, CSS, and JavaScript, along with practical training in React for front-end development. Additionally, I learned database integration using MongoDB, and built server-side applications with Node.js and Express.js
